

sako
demand perfection

EXCELLENCE IN EVERY DETAIL

Fabled legacy, cutting edge technology and uncompromised craftsmanship. As the world's most prestigious rifle and cartridge brand, Sako brings all these vital factors together like no other.

Sako products and way of working are based on a culture deeply rooted in the unforgiving Nordic nature. Overcoming these harsh conditions has always demanded perfection in every detail. All of our rifles comply with CIP and SAAMI requirements and are designed for and tested in ultimate conditions. We also produce high-quality centerfire cartridges with more than 100 different loads in 32 calibers for different targets and hunting purposes.

Times may change, but our mission remains the same: to offer our customers the very best in accuracy and performance.

We are hunters. We demand perfection.

MADE BY HUNTERS

*For us, it's not just a profession – it's a passion,
a lifestyle we share with our customers.*

There's nothing more precious than sitting by the fire and sharing something special with your fellow hunters. It's no secret that Sako's global reputation is rooted in the unique skills and expertise of our employees, hunters who also share this way of life.

Combining a passion with work creates something truly new. The insights we get out there in the forest support what we develop next at the job, and the stories shared are built into our future products. We know the difference good quality can make.

Read our stories at sako.fi/manufacturing

We take great pride in our work. Each rifle is carefully assembled by a single person, and each individual barrel is visually inspected. Every rifle goes through manual accuracy testing to ensure it can perform under 1MOA accuracy and is delivered with a certification that guarantees its quality and accuracy.

Sako's history goes back to the early 1920s. Since then, we've come a long way from manufacturing by hand to today's computer-aided R&D and CNC manufacturing. And yet, we have not forgotten the value of traditional gunsmith craftsmanship.

INDIVIDUALLY PERFECT

SAFETY

The special two-way Sako safety locks both the trigger and the bolt handle. The unique bolt release button of the Sako Safety System allows you to load or remove a cartridge from the chamber while the safety is engaged.

BOLT

Sako 85 bolt body is constructed from forged solid steel blank. One piece bolt body is machined from a blank so that it includes the bolt handle. This uniform construction is extremely rigid and robust.

EXTRACTOR & EJECTION

The Sako 85 has a famous extractor claw made of durable heat-treated steel. When the bolt forces the case back, the mechanical ejector fork ejects the case out of the rifle. The ejector is at the bottom of the rear bridge, not on the bolt face.

ACTION

Sako 85 actions come in six different sizes (CSA), providing reliability for each caliber and the very best functions for each cartridge size. All Sako 85 models feature controlled cartridge feed (RCS) to eliminate double feed or cartridge jams. The turn-bolt handle places the hand in a natural position during bolt operation, which allows for rapid repeated firing.

SAFETY

The special two-way Sako safety locks both the trigger and the bolt handle. The unique bolt release button of the Sako Safety System allows you to load or remove a cartridge from the chamber while the safety is engaged.

STOCK

The ergonomics of Sako 85's walnut and synthetic stocks are built for an optimal shooting posture. The excellent balance and smooth bolt operation of Sako 85 rifles enable fast, straight and accurate operation.

TRIGGER

The weight of pull of the single-stage Sako 85 trigger unit is adjustable from 1 to 2 kg (2-4 lbs). An optional single-set trigger is available for most Sako 85 models. All Sako 85 rifles have an extremely durable, all-steel trigger guard that protects the trigger. An exception to this are the Finnlight and Carbonlight models, which have a lightweight hard-anodized aluminium trigger guard.

MAGAZINE

The staggered, two-row magazine of the Sako 85 is made of stainless steel. The detachable magazine can also be loaded through the ejection port. The Total Control Latch (patent pending) of the Sako 85 prevents accidental magazine release.

BARREL

Sako 85 barrels are manufactured with a passion for craftsmanship and the very best knowledge of Sako. Barrel blanks are drilled, honed, cold-hammer forged, finished and finally individually inspected by an optical fine-tuning instrument: the human eye. Twist rates are chosen for each caliber to optimize accuracy and bullet performance. Sako 85 barrels, blued or stainless, have a non-reflecting, satin-like surface – with the exception of the Sako 85 Deluxe and Safari models that have a highly polished finish, and the 85 Finnlight II model that has a weather-resistant Cerakote coating.

85 CARBONLIGHT

The Sako 85 Carbonlight is a high-end rifle designed for gear-oriented enthusiasts after any type of game. This ultra-light multi-purpose hunting rifle features a carbon fiber stock with a soft-touch surface, a right-hand palm swell and a cheek piece. With an approximate weight of only 2.4 kg, the Sako 85 Carbonlight with S-action or the new XS-action is exceptionally comfortable to carry, even on long treks. You can also pick a left-handed option and different action lengths, including M-action.

MUZZLE BRAKE

Carbonlight in L action size calibers are delivered with a separately packed muzzle brake.

TECHNOLOGY

The Sako 85 Carbonlight rifle is built using the same CFRP technology that is used in both car and aerospace industries. This makes it extremely light, durable and rigid, resulting in a one-of-a-kind rifle.

85 FINNLIGHT

The Sako 85 Finnligh rifle is for those who foray deep into the wild to reach their goal. Hunters on mountain trails or on long-distance treks prefer high-performance rifles that are full-sized, yet still lightweight. The fluted barrel of the Finnligh is just one of the many features that make it ideal for the hunter seeking a perfectly trimmed light rifle. The Sako 85 Finnligh is also an excellent choice for women and younger shooters.

STOCK

Sako 85 Finnligh has a reinforced black polymer stock with a soft grey pattern on its grip surfaces and a Soft Touch surface treatment.

SAKO 85 BEAR SERIES

Every seasoned hunter knows the importance of choosing the right tool for the task. When facing a true challenge, you must be able to trust the accuracy and reliability of your rifle.

The Grizzly, Black Bear, Brown Bear and Kodiak are purpose-oriented weapons for big game hunting. Due to optimised length, these rifles are easy to carry and well-suited for dense forest conditions and medium to close range situations. All four Bear models feature adjustable fast target acquisition iron sights and detachable staggered two-row steel magazine with the Total Control Latch, preventing unintentional magazine release.

Bear series rifles can be top-loaded and have controlled cartridge feed, an adjustable single stage trigger and barrel band for front swivel – plus mechanical case ejection. They are also equipped with integral dovetail rails for secure scope mounting.

85 GRIZZLY

The Sako 85 Grizzly adds prestige to the Sako Bear Series. Its high-grade walnut stock, medium-contour fluted barrel and blued action give it an elegant appearance and make it a pleasure to handle.

SIGHTS AND BARREL

The 85 Grizzly has rapid target acquisition iron sights with a full rear sight line and bead, and a fluted barrel with a swivel band.

85 BROWN BEAR

The Sako 85 Brown Bear is also available in action size XL. This extends the caliber selection of the Bear series to include 416 Rigby, 450 Rigby and 500 Jeffery. The laminate stock has been redesigned to accommodate larger calibers, while the barrel profile has been redefined for the new calibers.

85 KODIAK

The Sako 85 Kodiak was designed with a true hunter in mind. The straight, weatherproof stock is made of grey laminated hardwood and reinforced with two cross-bolts. The short, free-floating medium contour barrel features adjustable open sights and a band-type front swivel. The barrel is cold hammer-forged using high-grade alloy stainless steel. The bolt, receiver and detachable magazine are also made of stainless steel, and provide reliability even under severe weather conditions.

SAKO 85 LONG RANGE RIFLES

Long range hunting is extremely demanding. There is no room for compromises when you are shooting game from long distances: your rifle and other gear have to be match grade in order to guarantee a vital hit.

The Sako 85 Long Range rifle has been designed to overcome any distance and challenge you may face. The Sako 85 Varmint rifles, in turn, are the perfect tools for targeting smaller marks, often with the help of a large objective and the rest under the weapon. For this purpose, these rifles boast a heavy barrel, a single-set-trigger, a pronounced pistol grip and a flat fore-end bottom.

85 VARMINT

The Sako 85 Varmint rifle is a long range hunting rifle for small to medium game, built to deliver pinpoint accuracy for hunting and target shooting. The heavy, free-floating barrel diminishes vibration and recoil, which makes it easy to zoom in and stay on target. The Varmint rifle stock is made of walnut, enhancing both comfort and accuracy. In addition, it features an extra wide, flat-bottomed beavertail fore-end and a more pronounced pistol grip for a better bench shooting position.

BARREL

A heavy barrel and a wide flat bottom fore-end enable steady shooting on sandbags.

85 VARMINT STAINLESS

The Sako 85 Varmint Laminated Stainless rifle comes with all the same qualities as the Varmint model, only its stainless metal parts and stable laminate stock are optimised for rough conditions. The fluted barrel increases heat dissipation, decreases overall weight and gives this rifle its distinctive beauty.

PISTOL GRIP

The pronounced pistol grip is designed to improve the ergonomics of the prone position.

85 LONG RANGE

The Sako 85 Long Range rifle is designed especially for long range hunting. Specific details, such as a muzzle brake, 26" match grade barrel, double sling studs and a stock designed for the prone position, guarantee that you will hit your target even from extreme distances.

MUZZLE BRAKE

Flush design muzzle brake was added to reduce the recoil. Muzzle brake will make it easier to keep the target in sights after the shot.

STOCK

The Sako 85 Long Range has a flat fore-end that provides better support while shooting without a bipod. The double studs enable simultaneous attachment of both the sling and bipod.

SAKO TRG RIFLES

The Sako TRG is an accuracy concept designed to accomplish a single-minded mission: to hit the target – whatever it takes, giving you unique performance that surpasses the highest demands for accuracy, reliability and versatility.

The TRG Accuracy Concept is designed to meet individual demands, adapting to each shooter's personal style, build and posture. The super target-grade barrel, made especially for the TRG rifles, is cold-hammer forged. The sturdy bolt with three locking lugs accurately feeds rounds from the centerline of a detachable staggered two-row magazine. All Sako TRG receivers are drilled and tapped for a Picatinny rail.

The TRG Accuracy Concept serves several military and law enforcement organizations as their primary sniper weapon system. The rifle is also used by long-range competition shooters and is a CISM competition winner.

TRG 22/42 A1

The Sako TRG 22 and 42 A1 are made for one specific task: to hit the target – whatever it takes. The 22 and 42 A1 have been taken to the next level with new features inspired by our flagship model, the TRG M10.

TRG M10

BLACK & COYOTE BROWN

The TRG M10 is a bolt action, multi-caliber, manually operated, magazine-fed, shoulder-fired sniper weapon with a high-capacity magazine and fully adjustable stock that provides a single weapon system solution for many different applications. A high level of configurability makes the TRG M10 an extremely versatile platform: it easily converts from a true long range precision rifle to a more compact piece of equipment.

AMBIDEXTROUS CONTROLS

The ambidextrous controls are well within the reach of the firing hand and are large enough to be also operated with gloves on. The robust and fully adjustable trigger unit can be detached for maintenance and adjustment without further disassembling the weapon.

TACTILE INDICATORS

Identification of modular components for different calibers can be done visually or from tactile indicators placed on each critical component.

SAKO RIMFIRE RIFLES

Many hunters begin their journey with their trusty rimfire rifle by their side. This is a tradition Sako Rimfire rifles proudly continue.

The Sako Quad is a special small game bolt-action rimfire rifle with interchangeable barrels. This makes the Sako Quad extremely versatile – you can change the barrel and switch calibers in couple of seconds. The Sako Quad is no ordinary rimfire rifle: it's a small bore hunting and training firearm that functions as its own system, complete with several options to choose between.

The Finnfire II, in turn, is a reincarnation of the classic Sako Finnfire from the 1990s. It is a perfect blend of Finnfire and Quad system, providing the best possible rimfire rifle experience.

Barrels can be easily changed using the Sako Quad barrel tool.

QUAD RANGE

The Sako Quad Range is an extremely versatile rimfire rifle, ready to accompany you to a small game hunt or to the range. An ergonomic stock combined with high adaptability makes for a unique, reliable rifle.

CALIBERS

Each Sako Quad caliber has unique characteristics and is designed for a specific targeting purpose. Calibers from left to right: 17 Mach 2, another version of the popular 22 LR; 22 LR, the universal caliber for target shooting and close-range small game hunting; 17 HMR, a high velocity varmint cartridge with excellent ballistics up to 150 yards; 22 WMR, the most powerful Sako Quad caliber – an excellent small game and varmint cartridge.

CALIBER / RATE OF TWIST:

ACCESSORIES

A quality rifle deserves quality accessories. The Optilock™ scope mounts perfectly complement Sako manufactured rifles and ensure ultimate accuracy in all circumstances. Long-lasting Sako Optisup suppressors, in turn, have been designed to stand the test of both elements and time, so you are never unprepared when taking a shot.

The standard Optilock™ base features an indexing edge that makes it easier to tighten the ring without any accidental rotation. All Optilock™ bases have a brand new angular design to perfectly go along with the beauty of the rifle itself.

The ring insert of the inner scope is made of polymer and protects the scope tube from deforming.

Optilock™ bases and adjustment rings are offered in multiple different lengths and sizes. This allows for a multitude of different scope sizes and brands to be fitted onto Sako rifles.

PICK THE RIGHT OPTILOCK COMBINATION

There's a selection table behind every Optilock™ package. This ensures it's easy to find the correct base and ring combination for your exact needs. More info at sako.fi

1. CHOOSE OPTILOCK™ BASE

RIFLE	Select the following Optilock Base:
Tikka, 17 mm rail	Optilock Base, Tikka

OPTISUP .22 & .17

Optisup .22 and .17 are simple and straightforward rimfire suppressors. These two models have a structure where the solid baffle construction can be easily dismantled for cleaning. The .22 version is extremely lightweight due to internal baffles that are made from a durable synthetic material. The .17 version has the same structure, but the baffles are made from aluminium.

- Removable internal baffles for easy cleaning
- Lightweight construction
- Cerakote® surface treatment for optimal weather resistance
- Two models; one for .22 and the other for .17

MODEL	WEIGHT (g)	LENGTH (mm)	DIAMETER (mm)	Bullet channel diameter / max caliber	Available Thread	SOUND REDUCTION in dB*
Optisup .17	154	220	28	7.5mm / 17HMR	½-20 / ½-28	20-29
Optisup .22	124	220	28	7.5mm / 22LR	½-20 / ½-28	19-22

KNOW YOUR GAME

We at Sako have a passion for hunting. We firmly believe that it is a truly unique sport, and as such we want to provide you with the perfect cartridge for each situation.

Our history started in 1921 with hand-manufactured firearms and we started manufacturing rifle cartridges in 1928. Even though high technology has since been introduced, we strive to maintain that same level of uncompromising craftsmanship. As hunters, the quality of our cartridges is a matter of pride.

We utilize modern computer-aided R&D and CNC manufacturing methods, yet the final critical steps we carry out ourselves. Each individual brass case is inspected by hand for quality assurance purposes. All Sako cases and bullets are suited for reloading and, with their sturdy quality, are said to outlast the competition. We offer 32 different calibers with more than 100 different loads. All Sako cartridges comply with C.I.P requirements.

Technology is only half of the story; a cartridge is never simply a cartridge. It's an essential part of each hunt, the enabler of each shot. It's something that puts you in charge of the situation. Choosing the correct tool for the task makes all the difference in the world.

To make the selection process easier for you, we have introduced a colour-coded system of categorisation for our cartridges. Bonded or un-bonded? Rapid or controlled expansion? You can know the basics at a glance, so you never have to struggle with the wrong cartridges ever again.

Choosing the right cartridge is no small thing. It's all about respecting your rifle, nature, and the animal you're hunting. With us, you're entitled to demand perfection.

sako
CARTRIDGES

SAKO CARTRIDGES – UNRIVALED ACCURACY AND CONSISTENT PERFORMANCE

When it comes to cartridges, we at Sako never settle for second best. Our legacy of accuracy and performance has proven this time and time again. We combine the latest technology with traditional gunsmith know-how to bring you the best cartridges money can buy. Familiarise yourself with our different product series and pick the right alternative for your rifle and shooting purpose.

RAPID EXPANSION SERIES

Maximised stopping power for small game. Non-bonded core and a lighter jacket. Mainly used for varmint and trophy hunting.

MONOLITHIC SERIES

Non-lead cartridges with high penetration capabilities and good durability. Maximal weight retention. Mainly used for big game hunting.

CONTROLLED EXPANSION SERIES

Optimised stopping power and good durability against bone. Bonded core and a thicker jacket. Mainly used for hunting medium and big game.

TARGET SERIES

Precision performance and optimal aerodynamics. Higher shooting velocity, less bullet drop and wind drift.

SAKO BALLISTICS

The Sako Mobile Ballistics App is a free, easy-to-use ballistic calculator that allows hunters and long-range shooters to identify the right cartridge for the given purpose.

The application stores data on all of Sako's cartridges and you can create your own profile for your rifle and ammunition combo.
